

MultiCare Rock the Foundation – Community Events

During the month of September, MultiCare will partner with the community to celebrate health care “rock stars” and raise funds to advance the simulation program at MultiCare. Simulation training will ensure that care teams are ready to face any challenge, together. Rock the Foundation, presented by MultiCare Health Foundation, is a high-energy fundraising event attended by hundreds of community and health care leaders from the South Sound.

How can I participate? Partnering together

It's simple: we're inviting local businesses to participate by pledging a percentage of their sales in one of three ways. All proceeds will benefit care team education through medical simulation.

- **Community Shop Night**
Pledge a percentage of sales for an evening of your choosing
- **Rock and Dine**
Restaurants pledge a percentage of sales for a week or month in September
- **Give Back Big**
Pledge a percentage of sales for the month of September

We want to partner together to make a difference, while promoting your business. Here's how:

- We'll post the event on MultiCare's internal website connecting with more than 20,000 employees
- We'll share on Rock the Foundation social media
- Rock the Foundation Community Support events promotion via email and website

Supporting health care rock stars

To help bring health care teams together, MultiCare offers advanced medical simulation. This model of clinical training provides realistic experiences for individuals and teams to learn and practice in a safe, controlled setting. Other benefits include improved teamwork and care outcomes. Most recently, simulation training played a vital role during the COVID-19 pandemic. As 459 health care workers bravely volunteered to serve in unfamiliar roles, simulation facilitated opportunities for mastering new techniques and learning to work with new teams quickly and effectively.

You can make a difference

By partnering with MultiCare Health Foundation through a community event, you and your customers are providing innovative support to MultiCare's care teams, leading to safer, better care for every patient, in every setting, every time.

Thank you for your consideration.
